- all components - modifications noted.
- Good job of keeping the lesson flowing + reminding students of the expectations. You seem to be very comfortable in front of the class + the students are respectful of you and are cooperating extremely well. This is super! 😊 Keep up the good job of your "teacher presence" and calm yet ~~composing~~ "in-charge" demeanor. This will bode well for the longer practicum in April/May, as the demands of a gr. 7 class increase.
 - "You're being a very good audience, keep it up please, I can tell you're listening very well". Again, good use of positive reinforcement.
 - Good job on this lesson, Susan.
- I will check back with you later to discuss anything from this lesson.
